

The Reality

Employers bear the full financial impact of:

- Chronic condition claims (diabetes, obesity, hypertension)
- Behavioral health utilization and productivity loss
- Delayed care driven by high deductibles
- Clinician shortages and long wait times

Brokers are expected to deliver measurable cost containment, not more fragmented point solutions.

Chronilogix is a Front-Door Claims Mitigation Strategy

Chronilogix delivers 24/7 AI-driven chronic and behavioral health coaching that engages members before issues escalate into high-cost claims.

Our AI coaches are trained in Motivational Interviewing (MI) and grounded in 30+ years of NIH-funded research, enabling clinically sound behavior change at scale—without relying on scarce human clinicians.

Why It Works for Self-Funded Plans

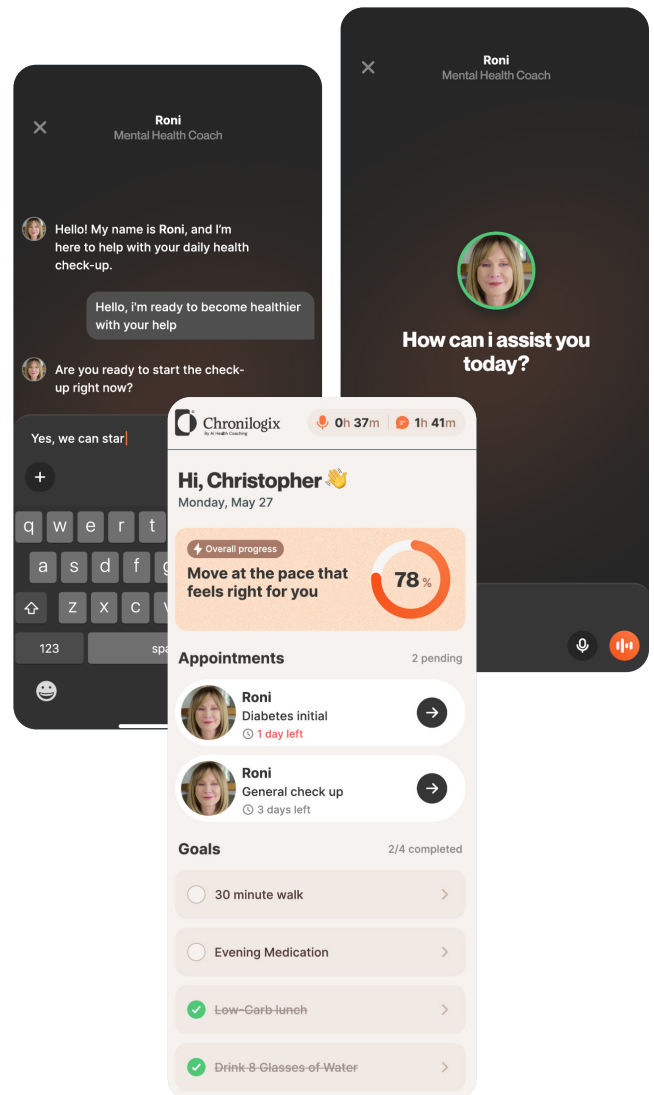

- Targets top drivers of avoidable medical spend
- Replaces up to 70% of routine human coaching
- Delivered at approximately 1/20th the cost
- Improves adherence, self-management, and early engagement
- Prevents minor issues from becoming major claims

Broker Value

Chronilogix helps brokers:

- Move upstream in the cost curve
- Lead defensible ROI conversations
- Differentiate beyond plan design
- Retain self-funded clients long-term

Real Member Experience

Onboarding, daily check-ins, goal tracking, and progress reporting powered by Roni, Chronilogix's AI Coach.

Conditions Driving Claims:

Diabetes • Obesity • Metabolic Health • Stress • Anxiety • Depression • Medication Adherence • Comorbid Physical + Behavioral Health
